Leading the path to AALAS Certification!

Exam Preparation Webinars for AALAS Certification

Now more convenient than ever with On Demand!

The on demand courses are recordings of previously held live webinars and are available to you for about 90 days or more. They are intended for use in between our live webinars, and are best suited for highly motivated, self-driven people who just cannot fit the webinars into their schedule. We cover everything in the book, plus the AALAS recommended study materials. Because there is no schedule to follow you must take the initiative to schedule your own time to listen to the recordings and do the homework assignments. These are very difficult exams, therefore you need to plan on spending several hours each week studying the materials. You will receive access to all the recordings at once, along with practice quizzes and exams. You will have limited access to an instructor for support as well.

Courses offered on demand

Laboratory Animal Technician Course

10 weeks of recorded classes for \$200.00

Laboratory Animal Technologist Course

14 weeks of recorded classes for \$230.00

Registration and information can be obtained through
