

About Sol Del Mar

Laura Jones, Founder and President of Sol Del Mar, is a Certified Manager of Animal Resources (CMAR) with more than 20 years experience in the design and operation of large scale animal facilities. Her diverse experience includes projects in the following animal research areas:

Agriculture
BSL 3
Discovery research
Biotechnology
Preclinical drug development

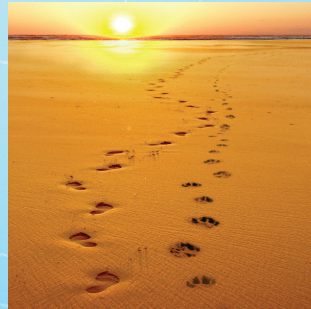

As a client liaison she has led Design Teams through 25 capital projects representing nearly 2,000,000 gross square feet of space ranging from tenant improvement remodels to construction and occupancy of new research buildings.

Ms. Jones is associated with the following organizations: AALAS, AMP, Animal Welfare Group, Biotech Forum, Biotech & Pharma Professional Network, Biotech Regulatory & Quality Professionals, CBRA, IIL, ISPE, LAMA, LAWTE, NAWBO, PRIM&R, Tradeline.

Incorporating SDMI's proven experience early in your project saves you time and money.

Sol Del Mar is the perfect partner to:

Win more projects
Maximize project profitability
Conserve budget and resources
Ensure client satisfaction

EXPERT PLANNING, DESIGN AND EXECUTION

The perfect partner for animal facility projects

Partnering with Sol Del Mar makes both dollars... and sense

As client budgets tighten, and requirements increase among clients and regulators, it is essential to have an expert on your team who knows animal facility design from the clients' perspective.

Sol Del Mar offers insider insights that can be invaluable as you navigate the numerous details, preferences, points of inspection, and potential choke points that are inherent in animal research facility projects.

This can make all the difference both as you compete for—and maintain the profitability of—your projects.

Sol Del Mar's blend of vivarium design and operational management expertise enables your firm to maximize the profitability of each animal facility project. Our unique client-side perspective helps you to conserve budget and resources while maintaining—and enhancing—client satisfaction, from concept through construction.

Our direct experience in managing and designing animal research facilities helps our partners avoid—or quickly correct—many of the costly problems that can delay delivery and create cost overruns.

Benefits at-a-glance

Team with SDMI to win new business

Train your staff on the practices preferred by leading facilities

Evaluate equipment and layouts to maximize client benefit

Regulatory guidance for:

- USDA and Animal Welfare Act
- FDA guidelines and monitoring practices
